OBJECTIVES

Creative and detail-oriented software engineer with a background in graphic design and UX/UI collaboration. Seeking to leverage a strong foundation in front-end development, product thinking, and emerging AI tools to build fast, intuitive, and scalable web experiences. Passionate about designing clean UIs, improving developer workflows, and contributing to user-first digital products.

TECHNICAL SKILLS & TOOLS

Languages/Frameworks:	Javascript, Typescript, React, Nextjs, React Native	Database & API:	MySQL, Prisma, MongoDB, GraphQL, RESTfull, EPIC
UI & Styling:	TailwindCSS, Material UI, Figma, Adobe Suite	Dev Tools & Integrations:	TailwindCSS, Material UI, Figma, Adobe Suite
State Management:	Zustand, Redux, Easy Peasy	Other:	Prisma Studio, MySQL Workbench

PROFESSIONAL EXPERIENCE

Upkeep Connects **5/2024 - present**
Software Engineer

- Spearheaded development of the Upkeep platform using Next.js, TypeScript, Prisma, MySQL, and Stripe, building job workflows from scratch.
- Designed and shipped key features: maintenance request pool, quote system, appointment booking, invoicing, and payment flows.
- Boosted frontend performance using useSWR for optimized data fetching and reduced re-renders.
- Collaborated directly with startup leadership (CTO, CEO, designer) to iterate toward MVP and launch strategy for the San Diego market.

Perlman Clinic **9/2021 - 8/2023**
Junior Software Engineer

- Maintained and expanded PocketDoc, a HIPAA-compliant telehealth app (React Native + web) used for remote medical services.
- Debugged and stabilized real-time video calls, increasing successful session rates and reducing drop-offs.
- Designed and implemented a calorie tracking feature with zoomable food images, improving patient engagement.
- Built a follow-up booking module that increased appointment retention by 13%.
- Enhanced internal tools via Epic Systems API integration, improving efficiency for healthcare providers.

ReviewBuzz **9/2014 - 8/2018**
Graphic Designer

- Created trade show collateral, digital ads, and branded assets for cross-functional teams.
- Contributed to UI asset development—experience that seeded the transition to front-end engineering.

EDUCATION

BloomTech (Lambda School) – Remote

Full-Stack Web Development Program | 2019 – 2021

UC San Diego Extension – San Diego, CA

Digital Content Creation Program | 2018 – 2019

Platt College San Diego – San Diego, CA

B.S. in 3D Design | A.A. in Graphic Design | 2009 – 2012
